DEPARTMENT OF SHIP ELECTRICAL EQUIPMENT AND AUTOMATION

In the laboratory there are electrical equipment, control systems and electronic equipment for training electro-technical officers and engineers: Automated control system by the main engine, Autopilot, Navigation light switch, Internal telephone communication, Engine Telegraph, DC and AC Motor Control Systems, Automated control system by diesel generator, Automated control system by electric power plant, Ship power plant monitoring system

Laboratory of Ship's Electrical Equipment and Automation:

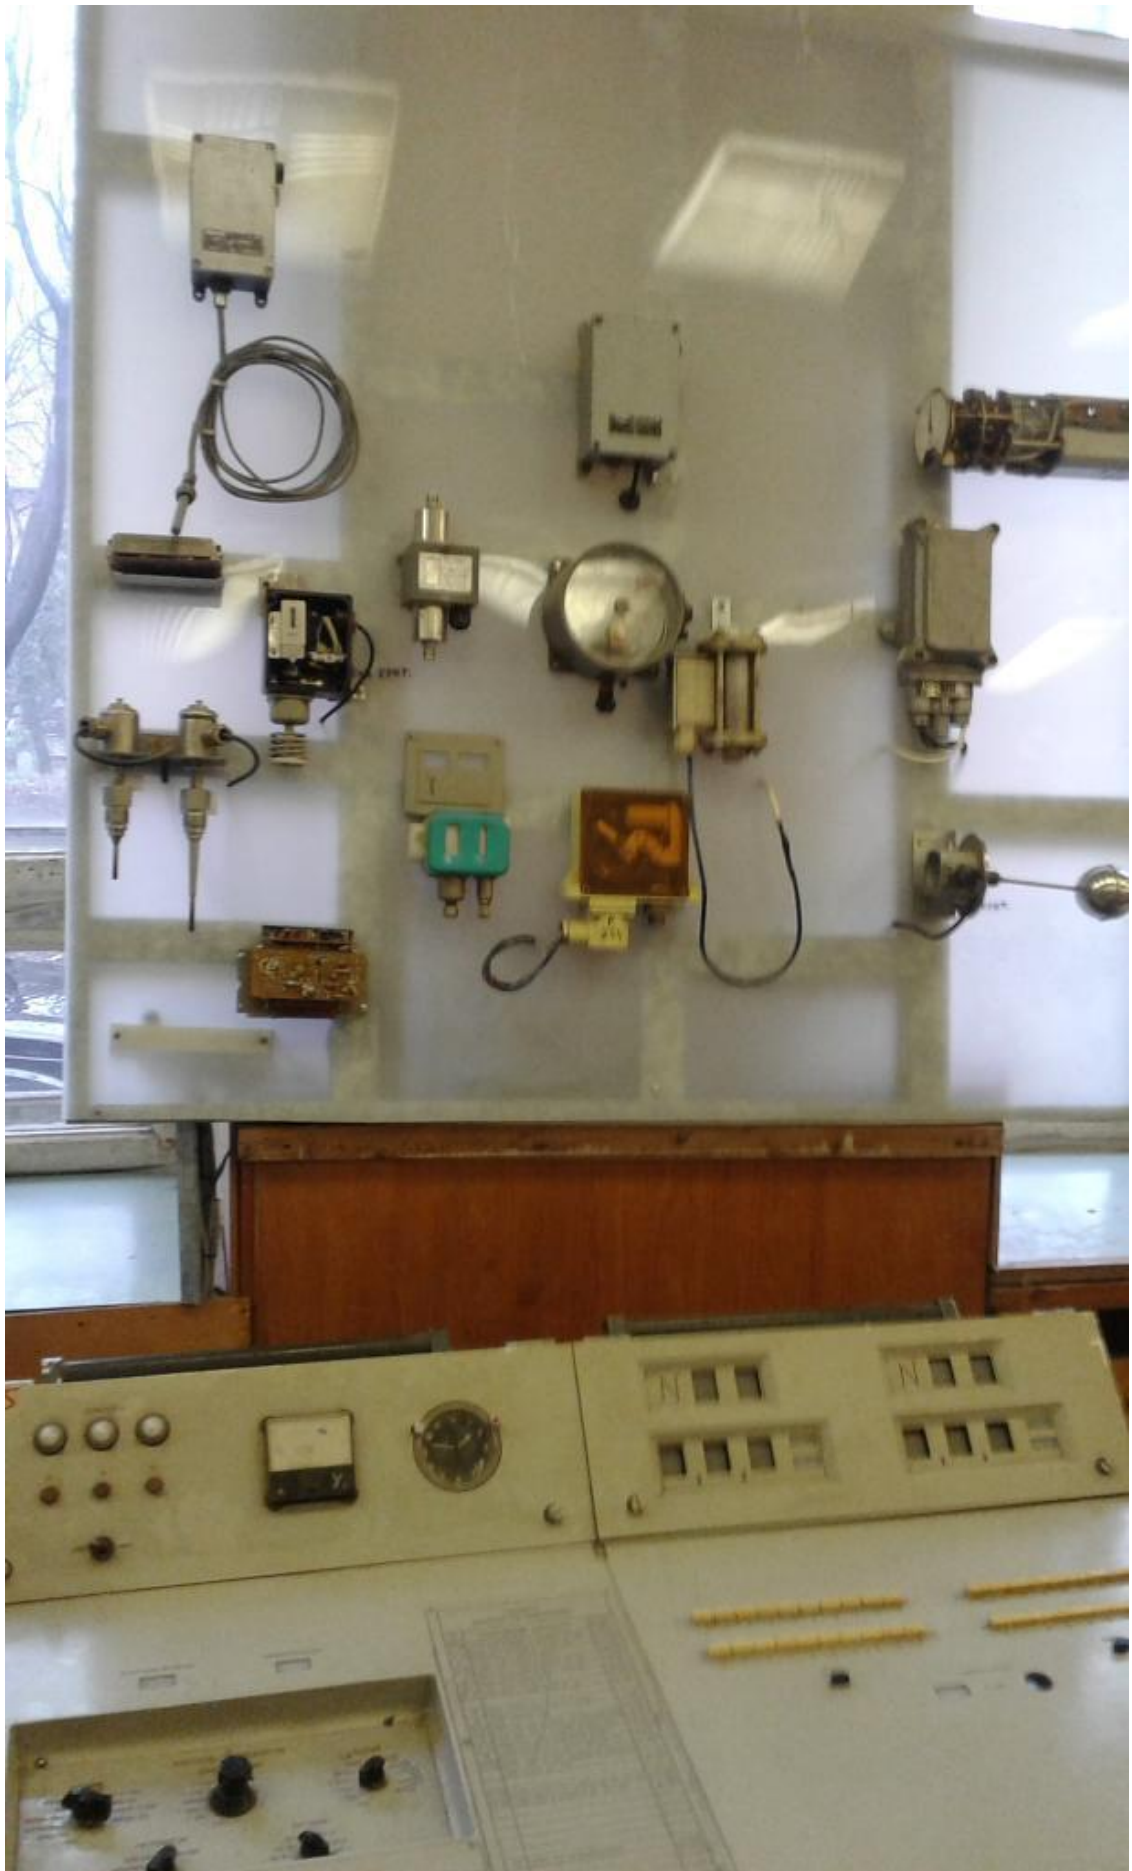

Laboratory of Ship's Electrical Equipment and Automation:

Ship power plant monitoring system

Automated control system by electrical power plant

Stand of Monitoring System and Sensors

Diesel generator automated control system

Automated Control System by the Main Engine

Autopilot

DC and AC Motor Control Systems

Navigation light switch, Internal telephone communication, Engine Telegraph
